

FALL 2007
CS 210 Computing and Culture

Assignment 10
Due: November 19, 2007

Computing in Agriculture and Meteorology
(20 points)

- 10.1. Perform a Web search to find out how computers are used in agriculture by farmers, agronomists and other agricultural professionals. Write a short essay (about half a page) to summarize the results of your search. (5 points)
- 10.2. Perform a Web search to find out how computers are used in meteorology to forecast weather and model such phenomena as hurricanes and tornados. Write a short essay (about half a page) to summarize the results of your search. (5 points)
- 10.3. Perform a Web search to find out how computers are used to model such phenomena as El Niño and La Niña. Write a short essay (about half a page) to summarize the results of your search. (5 points)
- 10.4. Well, how about computer modeling of global warming? And, as a matter of fact, how do you feel about global warming (after you did the search)? (5 points)
- 10.5. Provide a list of URLs (Web addresses) where you found the information. Save your work, print it out and submit on the due date.
